

ABSENDER: OUR MIRAGE GBR | MANUEL MÖBS, DOHNE 2, 45468 MÜHLHEIM AN DER RUHR

Information

Travel Party: 8 (eight) Band & Crew

Name	Vorname	Role	Contact
Bonner	Timo	Vocals	timo@ourmirage.de
Maus	Daniel	Drums	daniel@ourmirage.de
Möbs	Manuel	Bass	manuel@ourmirage.de
Hirz	Steffen	Guitar	steffen@ourmirage.de
Kozian	Jannis	Drum-Tech	jannis@ourmirage.de
Bertini	Ciro	Driver, Mercher	ciro@ourmirage.de
Proch	Yunus	FOH	yunus@ourmirage.de
Fuß	David	Guitar-Tech	david@ourmirage.de

No Monitoring needed!

The band uses their own In-Ear monitoring system. -> Find the frequencies on Page 3.

Signals

All the signals for the sound engineer come directly from the Rack. Please set up a CAT cable connection at the venue to connect the mixer with a stage box. We also will bring our own Drum-Microphones and all cables. The Vocalists will bring their own microphones as well.

If we do not have our own sound engineer with us: We need a stage box!

The band have an additional light setup

A programmed light show including associated LEDs and vertical fog machines is set up by the band before the show on stage. The light is controlled separately by the band via MIDI. We don't have a lighting operator with us. Please make sure that you match the colors of our light setup. **For each concert we will decide individually how our light show will take place on stage.**

ABSENDER: OUR MIRAGE GBR | MANUEL MÖBS, DOHNE 2, 45468 MÜHLHEIM AN DER RUHR

Sound

If we do not have our own sound engineer with us: Please listen to a song by Our Mirage before the show starts and orientate on our sound. The band uses a backing track that is important for the sound, so the stereo backing track should be well placed in the live mix.

During the show:

The drumset will not be shared. There are no exceptions. Never.

Our drummer has several endorsement deals that don't allow us to share the drums at any time.

Riser

We prefer a 3 x 2 m rollable drum riser with a minimum height of 40 cm. We also prefer an ego riser downstage left, center and right for the vocalist and the guitarists.

Stage and riser: Please make sure that your stage is securely installed and that no risers can collapse! If something breaks, it has to be replaced. The show can be canceled at any time if one of the musicians or the crew is endangered. This is based on an actual incident. Pay attention!

!OBLIGATORY! The band would like to have enough non chilled water without gas on stage. In addition, the band needs at least 5 towels on stage.

!OBLIGATORY!
